

Let's get Acquainted

By Ruby Compton

W. Scott Danley was born in Santa Monica, Calif. in 1949. His father was a Baptist and his mother, LDS. His dad later joined the church and the first thing he did, after earning the proper position to do so, was to baptize

Scott at the age of seven. The family moved to Phoenix, Ariz. two years later and Scott graduated from high school in 1967. While there, he earned his three year letter in wrestling, prior to that he earned his Eagle Scout Award.

In 1968, Scott filled a mission for the LDS Church in the Columbia-Venezuela area. These are now separate missions. Upon returning to the states, he attended the BYU, where he met Misty Cameron. Misty was a BYU student in the field of micro-biology. She had been a lifelong resident of Idaho, born in Pocatello and raised mostly in Twin Falls. She had participated in Girls State activities while attending school there.

Scott and Misty were married in the Salt Lake Temple in November of 1972. In 1973, they left the BYU to attend Dental School in Houston, Tex.

Scott's Dental School upper division credits were transferred back to the BYU and in 1975 Scott received his Bachelor of Science Degree from the BYU at that time. He graduated from Dental School in December of 1976.

While he was still in dental school, Misty attended the University of Houston until her first child, Jeff, was born in 1974. Jason was born in 1976 in Houston.

The Danley family moved to Pine Ridge, S.D. to serve in the Indian Health Service Branch of the Public Health Service. This was a military obligation of two years, to satisfy a scholarship received while in Dental School. In Pine Ridge, they worked with the Sioux Indians. Their daughter was born in the Indian Reservation Hospital in 1978.

Scott and Misty moved to Heber City in January of 1979. Scott had been told that Heber City did not need another dentist before coming here, but he found that another was needed. He has set up a nice family dental practice and serves people from Kamas, Duchesne, Heber City and some of the relatives of these people from as far away as Ogden. He enjoys his work and anyone is welcome to come. Since settling here in Heber City, the Danley's have had a son, David, born in 1980 at the Wasatch County Hospital.

They came to Heber City because they liked the people they knew from here and they wanted to live in a somewhat rural community. Misty and Scott have enjoyed their church activities since coming here. While they lived at Pine Ridge, S.D., the church membership was so small

that they were called a group, and Scott was the leader of the group.

Misty works as a Relief Society Visiting Teacher in the East Heber 9th Ward. She hopes to complete her education.

Besides his church activities, Scott belongs to Rotary International and the Chamber of Commerce. He and Dr. Stanton McDonald enjoy doing singing engagements. Those who have heard them are greatly pleased with the very real talent these two accomplished musicians and singers have.

Dr. W. Scott Danley and his wife, Misty, have really been accepted by those who know them.
